Sensors

Current, Pressure & Ultrasonic Sensors

Detect every detail with our line of current sensors, pressure sensors, and ultrasonic sensors featuring analog or digital outputs. With an extensive library of resources, our sensors offer a range of specifications and design options, ensuring you'll find the right solution for your detection or monitoring needs.

Engineering Tools

Resource Library

Gain access to a wide range of videos, blogs, ebooks, webinars, and more to assist in your next design.

CAD Model Library

Save time and resources by utilizing our library of free, ready-made 3D models and PCB footprints to help you to streamline the design process.

Sensors Product Line

Current Sensors Analog, Open Loop Modules

- Ac and dc current monitoring from 0.3 to 60 A
- Hall effect technology
- Fast response times down to 3 μ s
- Unipolar or bipolar polarization
- Sensing accuracy as high as $\pm 1.9\%$
- Through hole packages

Pressure Sensors Piezo Technology

- Absolute, gauge, and sealed gauge pressure types
- 0 kPa to 100 MPa pressure range
- Analog or digital I2C outputs
- Temperature compensated
- Stainless steel construction with O-ring seal
- 3-wire, 4-wire, 5-wire, or 6-pin terminations

Ultrasonic Sensors Transmitters, Receivers, and Transceivers

- Distance ratings from 0 to 18 m
- Analog outputs
- Beam angles from 7 up to 80 degrees
- 23 to 400 kHz frequency ratings
- Aluminum or plastic cases
- IP67 or IP68 rated models available

Global Stock Availability

Our network of global distribution partners provides you with quick and easy access to our sensor products, ready to ship same day across the globe.
